JEFFERSON PARISH SHERIFF'S OFFICE**BATTERY SPECIFICATIONS****1.0 SCOPE OF CONTRACT**

- 1.1 Scope-Jefferson Parish Sheriff's Office yearly supply of batteries.
- 1.2 Batteries to be used by all Departments of the Jefferson Parish Sheriff's Office, but ordered only from Motor Maintenance.
- 1.3 Numbers and identification information taken from BCI Battery Replacement Data Book.

2.0 MATERIAL REQUIREMENTS

- 2.1 All batteries shall be first grade, first line products, and must meet the latest published Battery Council International (BCI) specifications.
- 2.2 Only batteries with polyvinyl chloride or other plastic type of separators will be considered.
- 2.3 Contractors awarded contracts through resulting proposal must guarantee their products against manufacturing defects, workmanship and materials. Warranty period and warranty cost per month must be specified in column eight, by showing the warranty period in months and the monetary prorater per month. Bidder must agree to issue check or credit statement to the Sheriff's Office for value of warranty settlement. Warranty cost per month will be a prime factor in award of bid. Failure of battery within the first ninety (90) days shall be cause for full replacement at no charge to the Sheriff's Office, with each month prorated thereafter to include the first ninety (90) days.
- 2.4 Brand name battery offered and complete specifications data must be submitted with all bids and failure to do so will disqualify bidder.
- 2.5 Selection and award will be made on an overall cost basis, not individual battery basis, considering cost, warranty cost per month, battery performance (cold cranking power and reserve capacity) and junk price of old battery. When a battery delivery is made and junk battery or batteries are available, the junk must be picked up at delivery and credit for junk battery must be given at that time.
- 2.6 All batteries are to be the wet type, unless otherwise specified.

3.0 GENERAL REQUIREMENTS

- 3.1 This proposal covers all batteries listed on the attached sheet. The purpose of the bid sheet is to evaluate bid. The Sheriff's Office may require other batteries than those listed on bid sheet, therefore, all batteries on dealer price list become part of contract at same discount offered on bid list. Dealers price list must be made available with bid. Items under State contract price control should be so identified and discount indicated.
- 3.2 Successful bidder must agree to carry sufficient quantities in their stock and make prompt deliveries (and/or installations) within three (3) working days to various departments of the Sheriff's Office as directed. Emergency orders for "Equipment Out of Service" awaiting batteries shall be delivered within twenty-four (24) hours and, if not, the Sheriff's Office may exercise the option to purchase the required batteries from an alternate source and

deduct any additional cost from any payments due the successful bidder. In such cases of emergency orders, the Department of Motor Maintenance will pick up batteries at vendor's request.

- 3.3 The Jefferson Parish Sheriff's Office reserves the right to inspect facilities and stock of any prospective contractor, prior to making an award. Such inspections shall be for the purpose of confirming that ample stocks are maintained to insure the ability of the bidder to fulfill the obligation of the contract.
- 3.4 Successful bidder/bidders will be required to furnish the Jefferson Parish Sheriff's Office, Director of Motor Maintenance, with quarterly reports of quantities and types of all batteries delivered under this contract.
- 3.5 Estimated quantities are strictly for bidding purposes, and may be increased or decreased in accordance with Sheriff's Office requirements. Purchase Orders will be issued for various quantities as required by Motor Maintenance.
- 3.6 This is a price protection contract and in no event will any price increase be considered during the life of the contract unless the Sheriff's Office is presented with a letter from the manufacturer at least ten (10) days prior to the effective date of manufacturer's price increase. The Jefferson Parish Sheriff's Office reserves the right to cancel this contract without penalty within ten (10) days after receipt of the price increase notification.
- 3.7 Cold cranking power, as indicated in column three (3) of the bid sheet indicating type and numbers of batteries to be bid, is the minimum acceptable cold cranking power. Bidders may bid cold cranking power in excess on minimum indicated, but less than minimum will not be accepted.
- 3.8 Approximate reserve capacity is requested as indicated for column five (5). A deviation of approximately five percent (5%) below requested amount is the maximum tolerance. Bidders may, however, bid higher reserve capacity.
